

QUICK START GUIDE

CONSUMER MOBILE BANKING

APP FEATURES

- Check balances
- View deposit account history
- Deposit checks
- Initiate Bill Payments within your existing contact list and approve Bill Payments
- Make internal transfers

DOWNLOADING THE APP

Download the First Business Consumer Mobile Banking app in your app store or easily find our app with the click of a button on our [Mobile Banking app web page](#).

MAKING A MOBILE APP DEPOSIT

- Your first deposit must be \$25,000 or less. After your initial mobile banking deposit, you can work with your Private Banker to set a limit that meets your ongoing deposit needs.
- If your account has been opened less than 30 days please work with your Private Banker to prequalify you prior to attempting to make your first deposit.
- Endorse the back of your check(s) to say: "For mobile deposit only." If you deposit a lot of checks using the mobile banking app, your Private Banker can provide you with an endorsement stamp.
- Don't dispose of your check right away. Please keep it in your records for 15 business days & verify the funds have been credited to your account prior to destroying the check.
